

The Simple Tattoo Aftercare Routine

1. Leave your wrap on for **2 hours** after your tattoo
2. Wash your hands **before** removing your wrap
3. Wash your tattoo under running luke warm water with mild soap gently without rubbing too hard in a circular motion
4. Let the tattoo air dry for **15 minutes**
5. Apply either tattoo aftercare you have bought from our studio or a coconut oil/butter.

Do this in a **circular motion** until the cream has been soaked up by your skin.

DO NOT USE BEPANTHEM - WE DON'T CARE IF YOUR MATE TELLS YOU TO - WE DID THE TATTOO NOT THEM!

6. **DO NOT APPLY MORE THEN A FINGER FULL OF AFTERCARE - Applying more will not make your tattoo heal any quicker!**
7. KEEP ALL ANIMALS & SMALL CHILDREN AWAY FROM YOUR FRESH TATTOO - THEY'RE GERM MAGNETS IT'S A FRESH WOUND
TREAT IT AS ONE!
8. **APPLY CREAM TWICE DAILY & FOLLOW STEP 3-5 EACH TIME - DO NOT LET IT DRY OUT!**
9. **DO NOT SOAK YOUR TATTOO (BATHS, SHOWER, HOT TUBS, POOLS) OR SUNBATHE WHILST HEALING THIS INCLUDES SUNBEDS!**
10. **Your tattoo will take around 2 weeks to heal - During this time do not pick or scratch the tattoo!**

Don't forget we can tell when you've not looked after your tattoo!
